OBJECTIVE

Aspiring Full Stack Developer with strong foundational knowledge in Java, Python, React.js, and SQL, gained through academic projects and intensive training. Skilled in both frontend and backend development, with hands-on experience building responsive, scalable web applications and RESTful APIs. Eager to apply my skills in a real-world environment, contribute to impactful software solutions, and grow within a dynamic development team.

SKILLS

Programming Languages	Python, Java, JavaScript
Frontend Technologies	HTML5, CSS3, Bootstrap, React.js
Database	SQL
UI/UX Design	Figma
Version Control System	GitHub
Soft Skills	Critical thinking, Problem Solving

EDUCATION

B. Tech - Computer Science and Engineering

Nutan College of Engineering and Research, Pune Dec 2021 - July 2024 | CGPA: 7.42

Diploma in Computer Engineering

Dnyaneshwar Polytechnic, Bhanashivara, Aug 2019 - Sept 2021 | Percentage: 86%

TRAINING

Full Stack Developer Trainee Revature | Nov 2024 - Jan 2025

- Completed an intensive training program in Java Full Stack Development, covering Spring Boot, REST APIs, React.js, and SQL.
- Built multiple end-to-end web applications and implemented RESTful services following best practices.
- Gained practical exposure to software development life cycle (SDLC) and agile methodologies.

CERTIFICATION

- Machine Learning & Data Science with Python
- HackerRank (Python Basic)

PROJECTS

Stress Detection

- Technologies: Python, ML algorithms.
- Developed a machine learning model to detect stress levels based on sleep patterns using ensemble learning techniques. Implemented data preprocessing, feature engineering, and trained models like Random Forest and SVM to achieve high accuracy.

Social Media Blog API

- Technologies: Java, Javalin, SQL.
- Developed RESTful endpoints for creating, retrieving, updating, and deleting blog posts.

Book Finder API

- Technologies: HTML5, CSS3, Javascript, Google Books API.
- Designed and developed a responsive web application to search, sort, filter, and display book details using the Google Books API.
- Implemented features like detailed book views, rating-based sorting, e-book filtering, and dynamic UI updates.

HOBBIES AND INTERESTS

- Traveling
- Sports (Cricket)
